14 Tracks (Themes)

New/Revised

1) Entrepreneurial Mindset

- Best Practices in Measuring Entrepreneurship Mindset: Inside and Outside the Classroom.

2) Entrepreneurship Teaching and Learning

- Novel Approaches to Teaching Venture Creation and Entrepreneurial Mindset in either curricular or co-curricular courses.

3) Entrepreneurship Center Programming

- Running a portfolio of programs--challenges and solutions centers face among other things.

4) New and Novel Center Programming

- What will be the next unique experiential and interactive programs?

5) Center Operations

- This track covers many aspects of running a successful center:

6) Entrepreneurial Outcomes: Extracurricular Programs

- What and how do centers measure learning outcomes beyond courses.

7) Engaging the Community

- The how on building the ecosystems on campus and in your community

8) Startup Capital

- The how on linking Angel Investor Networks, Venture funds, and Grants/Awards to student/faculty to startup capital needs.

9) Diversity, Equity and Inclusion

- Programming Targeted to Underserved Populations; Inclusive Community Building; and measuring such outcomes.

10) Global Entrepreneurship

- Curricular and Co-Curricular Global Programs, including study abroad opportunities and cross-country collaborations.

11) Applied Research

- How is research being leveraged for programming and centers? How are centers facilitating the intersection of multi-disciplinary research?

12) Technology Commercialization

- Curricular and co-curricular courses tied to tech commercialization; Participation in national programs (e.g., I-Corp); How centers help faculty capture, protect and license Intellectual Property.

13) Ethics and Entrepreneurship

- How are centers and courses addressing ethics?

14) Specialty Teaching, Learning and Programming

- Arts entrepreneurship; interdisciplinary programs; social impact focused programs.

+15) Other topics (e.g., Emerging technologies: opportunities & challenges)

Four formats

1. Presentation / Talk

- Choose 30 mins or 60 mins
- Give summary of talk (125 to 250 words)

2. Workshop

- Choose 30 mins or 60 mins
- Describe purpose and activity (125 to 250 words)

3. Panel discussion

- 60 mins
- Moderator to submit entire session
- Give summary of panel discussion (125 to 250 words)
- List your proposed panelists (3-5 individuals)

4. Roundtable topic

- 60 mins
- Scheduled during lunch breaks
- Provide the topic of interest why it is important (125 to 250 words)
 - Plus: 3-5 questions to prompt discussion
